

## GASTON GROWER SPOTLIGHT- January 2021

### A New Year to Explore Gaston County

This month's grower spotlight highlights a relatively new app that will allow you to better explore the variety of agriculture operations and local food options available here in Gaston County. You can check out the [Visit NC Farms website](#) for more information. That being said, the feature of being able to browse what our county has to offer is unique to the app, which can be downloaded on iPhone or Android devices. While this spotlight does not offer a chance to learn about specific growers within our county it does offer an easy way for you to connect with them.

Gaston County's involvement in the app is an effort to show that there is plenty to learn and explore right here at home. From local meats, farmers markets, farms, nurseries, pick your own operations, museums, breweries and restaurants there are numerous options to explore. There is no better way to get to know your local growers than an app that enables the user to get their contact information, business hours and location at the push of a button. I encourage you to make it your goal in 2021 to explore Gaston County and see what it has to offer.

N.C. Cooperative Extension prohibits discrimination and harassment regardless of age, color, disability, family and marital status, gender identity, national origin, political beliefs, race, religion, sex (including pregnancy), sexual orientation and veteran status. NC State University, N.C. A&T State University, U.S. Department of Agriculture and local governments cooperating.
